EMS Response Time, Call-to-Scene Performance by Interval, Critical Medical Dispatches, May 2007

Average Response Time (minutes:seconds); May 2007			
	Call-to-Dispatch*	Dispatch-to-Scene**	Call-to-Scene***

* The Call-to-Dispatch interval is controlled by the Office of Unified Communications (OUC). This is the time it takes to process a 911 call. This interval begins with receipt of a 911 call at the Unified Communications Center (UCC) and ends with the beginning of dispatch of FEMS resources.

** The Dispatch-to-Scene interval is the component of response time that begins with the dispatch of FEMS resources by the OUC, and ends with the arrival of FEMS on the scene.

*** The Call-to-Scene interval is the complete response time segment from 911 call receipt to arrival on the scene.
